Certificate of appreciation

Sunbeam School, Mughalsarai, India, had the privilege to invite, Motivational Speaker **Mr. Marcel Willems** from Switzerland on 3rd December 2018, who could interact with students of Std XI. Mr. Ved Prakash, a philanthropist and a successful businessman from Varanasi as well as Mr. Rajiv Agarwal, President, Rotary club were also present during the deliberations.

Mr. Marcel elaborated upon the necessity to dream, self belief and confidence as well as the path to follow ones dream. He reiterated that life begins where fear ends and that life with fear is impossible. Each individual is treasured with massive potential. He gave an example of the illustrious cricketer M.S. Dhoni and his movie- M.S. Dhoni - the untold story....

He further said that mistakes are the stepping stones for learning. Even a baby trods and falls before being able to walk steadily.

We need to learn to derive Positive out of negative thoughts. We should not be rude to others. As you sow, so shall you reap.

The session was well appreciated by the participants from class XI .The style of delivery was interactive and interesting.

We would like to have more sessions with Mr. Marcel Willems of Swiss Pathway for motivation of students.
